Collateral in such form and amount as the Broker may determine and such demand shall become immediately due and payable by the Client. The aforesaid impracticality may be due to the following (without limitation) rapid changes or development involving prospective changes:

- 3.3. The Broker is entitled to exercise any voting right or other right in respect of the Collateral for the protection of the Broker's interest in the Collateral and the Client shall not exercise any right attaching to the Collateral in any manner which, in Broker's opinion, may be inconsistent with the obligations under this Agreement or prejudicial to the Broker's right in the Collateral.
- 3.4. Whenever there is any secured obligations, the Broker has the right, without prior notice or consent from the Client, to dispose of or otherwise deal with any part of the Collateral at its absolute discretion upon such terms and in such manner it thinks fit for settlement of the secured obligations to protect its interest, in particular for the Clients failure in meeting any call for Collateral or margin call made by the Broker or significant fluctuation in market prices. In event of any deficiency after the sale of Collateral, the Client shall make good and pay on demand to the Broker such deficiency.
- 3.5. The Client shall pay or reimburse the Broker immediately upon demand all costs (including collection expenses and legal costs on a full indemnity basis) and expenses in connection with the enforcement or preservations of any right of the Broker under this Agreement.

- (H) the existence of any claim, set-off or other right which the Client may have at any time against Broker or any other person;
- (I) any arrangement or compromise entered into by the Broker with Client or any other person;
- (J) the illegality, invalidity or unenforceability of, or any defect in, any provision of any document relating to the Margin Facility or any security, guarantee or indemnity (including the Charge) or any of the rights or obligations of any of the parties under or in connection with any such document or any security, guarantee or indemnity (including the Charge), whether on the ground of ultra vires, not being in the interests of the relevant person or not having been duly authorized, executed or delivered by any person or for any other reason whatsoever;
- (K) any agreement, security, guarantee, indemnity, payment or other transaction which is capable of being avoided under or affected by any law relating to bankruptcy, insolvency or winding-up or any release, settlement or discharge given or made by the Client on the faith of any such agreement, security, guarantee, indemnity, payment or other transaction, and any such release, settlement or discharge shall be deemed to be limited accordingly; or
- (L) any other thing done or omitted or neglected to be done by the Broker or any other person or any other dealing, fact, matter or thing which, but for this provision, might operate to prejudice or affect the Clients liabilities under the terms of this Agreement governing the Margin Facility.

Client Information may be requested by the Broker or on behalf of the Broker or the Broker's group, and may be collected from the Client directly, from a person acting on behalf of the Client, from other sources (including from publicly available information), and it may be generated or combined with other information available to the Broker or any other member of the Broker's group.

11.2.3. Use

The Broker and members of the Broker's group may use, transfer and disclose Client Information (a) in connection with the purposes set out in this Clause 11.2, (b) as set out in the Notice (applicable to Personal Data) and (c) in connection with matching against any data held by the Broker or the Broker's group for whatever purpose (whether or not with a view to taking any adverse action against the Client) ((a) to (c) are collectively referred to as the "**Purposes**").

11.2.4. Sharing

The Broker may (as necessary and appropriate for the Purposes) transfer and disclose any Client Information to the recipients set out in the Notice (who may also use, transfer and disclose such information for the Purposes).

11.2.5. The Client's Obligations

- (a) The Client agrees to inform the Broker promptly, and in any event within 30 days, in writing if there is any change to Client Information supplied to the Broker or a member of the Broker's group from time to time, and to respond promptly to any request for Client Information from the Broker or a member of the Broker's group.
- (b) The Client confirms that every Connected Person whose information (including Personal Data or Tax Information) has been (or will be) provided to the Broker or a member of the Broker's group has (or will at the relevant time have) been notified of and agreed to the processing, disclosure and transfer of such information as set out in this Clause 11.2 and the Notice (as may be amended or supplemented by the Broker from time to time). The Client shall advise any such Connected Persons that they have rights of access to, and correction of, their Personal Data.
- (c) The Client consents and shall take such steps as are required from time to time for the purposes of any applicable data protection law or secrecy law to permit the Broker to use, store, disclose, process and transfer all Client Information in the manner described in this Clause 11.2. The Client agrees to inform the Broker promptly in writing if he is not able or has failed to comply with the obligations set out in paragraphs (b) and (c) in any respect.
- (d) Where:
 - (i) the Client or any Connected Person fails to provide promptly Client Information reasonably requested by the Broker, or

- (ii) the Client or any Connected Person withholds or withdraws any consents that the Broker may need to process, transfer or disclose Client Information for the Purposes (except for purposes connected with marketing or promoting products and services to the Client), or
- (iii) the Broker has, or a member of the Broker's group has, suspicions regarding financial crime or an associated risk,

the Broker may:

- (A) be unable to provide new, or continue to provide all or part of the, Services to the Client, and reserves the right to terminate its relationship with the Client;
- (B) take actions necessary for the Broker or a member of the Broker's group to meet the Compliance Obligations; and
- (C) block, transfer or close the Client's account(s) where permitted under local Laws.

In addition, if the Client fails to supply promptly his, or a Connected Person's, Tax Information and accompanying statements, waivers and consents, as may be requested, then the Broker may make its own judgement with respect to the status of the Client or the Connected Person, including whether the Client or a Connected Person is reportable to a Tax Authority, and may withhold or require other persons to withhold amounts as may be legally required by any Tax Authority and to pay such amounts to the appropriate Tax Authority.

11.3. Tax Compliance

The Client acknowledges that he is solely responsible for understanding and complying with his tax obligations (including tax payment or filing of returns or other required documentation relating to the payment of all relevant taxes) in all jurisdictions in which those obligations arise and relating to the opening and use of account(s) or Services provided by the Broker or members of the Broker's group. Each Connected Person acting in his/its capacity as a Connected Person shall be regarded as making the same acknowledgement in his/its own regard. Certain countries may have tax legislation with extra-territorial effect regardless of the Client's or a Connected Person's place of domicile, residence, citizenship or incorporation. Neither the Broker nor any member of the Broker's group provides tax advice. The Client is advised to seek independent legal and tax advice. Neither the Broker nor any member of the Broker's group has responsibility in respect of the Client's tax obligations in any jurisdiction which may arise including any that may relate specifically to the opening and use of account(s) and Services provided by the Broker or members of the Broker's group.

11.4. Miscellaneous

- 11.4.1. In the event of any conflict or inconsistency between any of the provisions of this Clause 11 and those in or governing any other service, product, business relationship, account or agreement between the Client and the Broker, this Clause 11 shall prevail.
- 11.4.2. If all or any part of any provision of this Clause 11 becomes illegal, invalid or unenforceable in any respect under the law of any jurisdiction, that shall not affect or impair the legality, validity or enforceability of such provision in any other jurisdiction or the remainder of this Clause 11 in that jurisdiction.

11.5. Survival Upon Termination

This Clause 11 shall continue to apply notwithstanding any termination by the Client or the Broker or a member of the Broker's group of the provision of any Services to the Client, or the closure of any of the Client's accounts.

12. Taxation

- 12.1. It is the Client's sole responsibility to handle and/or fulfill any local, overseas or worldwide tax issues, liabilities and/or obligations under all Market Requirements (including, without limitation, tax reporting, filing relevant tax return(s), paying any applicable tax and dealing with any application for Tax Reclaim Arrangement) arising from or in connection with trading, holding, disposing of or otherwise dealing with Securities or investment via the Broker. The Client must seek independent professional advice from his own tax advisors to determine his tax position, liabilities and obligations in relation to the relevant Securities or investments. The Broker assumes no responsibility for advising on or handling such tax issues, liabilities and/or obligations nor will the Broker provide any service or assistance in this regard.
- 12.2. In particular, the Client agrees and accepts that, unless otherwise specified by the Broker, in no circumstances will the Broker or any of its nominees, custodians and/or agents be under any obligation or responsibility to apply for, or assist in the application for, any Tax Reclaim Arrangement that may be available to the Client. The Client agrees and accepts that neither the Broker nor its nominees, custodians and/or agents shall be held liable for the loss of Tax Reclaim Arrangement or any other losses, damages, costs and/or expenses incurred or suffered by the Client in this regard.
- 12.3. Notwithstanding the above but without prejudice to the full force of the foregoing provisions, if the Broker so requests at its absolute discretion, the Client shall complete, provide information, sign and file any tax forms, certificates or documents which the Broker or any of its nominees, custodians and/or agents is required by any tax authority of any applicable jurisdiction to submit in respect of the Client in connection with any investment or transaction made on behalf of the Client pursuant to the Master Terms and Conditions. The Client agrees to cooperate with the Broker, its nominees, custodians and/or agents and provide the necessary information and assistance to them or any of them for such purposes.
- 12.4. Without prejudice to the foregoing, the Broker shall be entitled in its absolute discretion, without further notice or demand, forthwith to satisfy any actual or potential obligation of the Broker arising from or in connection with any trading, investment, holding, disposing of or otherwise dealing in any China Connect Securities by the Client to: (a) require the Client promptly to provide to the Broker the relevant details and information in respect of all of his transactions in China Connect Securities as and when required by the Broker; and (b) provide all required information related to the Client and/or his transactions in China Connect Securities to any China Connect Authority as and when required by the Broker, and the Client agrees and fully consents to the Broker providing the same.
- 12.5. Without prejudice to any of the rights of the Broker, the Broker shall be entitled in its absolute discretion, without further notice or demand, forthwith to satisfy any obligation or potential obligation of the Broker or any Related Person or the Client to pay or account for any amounts in respect of any Taxes by selling, realising or otherwise dealing with (including but not limited to withholding or deducting any amount towards Taxes), in such manner as the Broker in its absolute discretion may determine, all or part of any property held by the Broker or any Related Person for any purpose in any of the Client's accounts with the Broker or any Related Person, and to apply the proceeds in reduction of all or part of the Client's liability to any tax authority or the Broker or any Related Person.

13. Further Information and Survival of Obligations

- 13.1. The Client will execute any further documents and provide any materials and/or information as may be reasonably requested by the Broker to enable it to perform its duties and obligations under these Stock Connect Terms and Conditions which may become necessary as and when the China Connect Rules are amended from time to time.
- 13.2. The Client will provide all information (including translations into Chinese, if required) to the Broker which the Broker requests if such information is requested by any China Connect Authority or any exchange or regulatory authority or any organisation (whether within or outside Hong Kong) with which HKEx or the SEHK has entered into an information-sharing arrangement or agreement. Amongst other things, the Client's failure to comply with this Clause 13.2 may result in a suspension of China Connect Services to the Client.
- 13.3. The Broker reserves the right to vary any of the terms of these Stock Connect Terms and Conditions in accordance with the Master Terms and Conditions.
- 13.4. Clauses 4 (*Compliance with Trading Restrictions and Market Requirements*), 5 (*Risk Disclosures and Acknowledgement*), 8 (*Sale, Transfer and Disgorgement*), 9 (*Indemnity*), 11 (*Collection and Disclosure of Client Information*), 12 (*Taxation*) and 13.2 of these Stock Connect Terms and Conditions and paragraphs 12 (*Taxation*) and 21 (*Disclosure of Information and Publication of Trade Information*) in Appendix 1 hereto (and such other provisions of these Stock Connect Terms and Conditions or of Appendix 1 hereto as the context requires) shall survive termination of these Stock Connect Terms and Conditions and the General Terms and Conditions but otherwise these Stock Connect Terms and Conditions shall automatically terminate upon termination of the General Terms and Conditions.

14. Market Data Information

Where the Client receives any Market Data Information from the Broker and/or any Related Person, the Client agrees as follows:

- (A) he shall use the Market Data Information only as an end-user and shall not disseminate the Market Data Information to any person or grant any person any access to the Market Data Information, whether free of charge or otherwise;
- (B) he shall not use or permit the use of the Market Data Information for any illegal purpose;
- (C) he shall not use the Market Data Information for index computation and compilation or as the basis for any tradable derivative product;
- (D) subject to sub-clause (C) above, he shall use the Market Data Information only for his own purposes, in the ordinary course of his own business (which shall not include the dissemination of Market Data Information to any persons or third parties, whether on a for-profit basis or otherwise), or for the purpose of enabling his software system suppliers to develop, connect or apply relevant software solutions to facilitate his use of the Market Data Information;
- (E) he acknowledges that SSE and SZSE endeavour to ensure the accuracy and reliability of the information provided but does not guarantee its accuracy or reliability and accepts no liability (whether in tort or contract or otherwise) for any loss or damage arising from any inaccuracies or omissions;
- (F) he acknowledges that the SEHK, its holding company and/or any subsidiaries of such holding company endeavour to ensure the accuracy and reliability of the information provided but do not guarantee its accuracy or reliability and accept no liability (whether

in tort or contract or otherwise) for any loss or damage arising from any inaccuracies or omissions; and

- (G) the Broker and/or any Related Person, by disseminating or making available any Market Data Information received from the SEHK to the Client, does not warrant or represent the accuracy or reliability of any Market Data Information or accept any responsibility (whether in tort or contract or otherwise) with respect to any loss or damage caused to the Client or any third parties arising from any inaccuracy or omission in or of the Market Data Information.

Appendix 1

Risk Disclosures and Other Information

This Appendix describes some of the key risk disclosures and other information concerning China Connect. This Appendix does not disclose all the risks and other significant aspects of Northbound trading through China Connect. The Client should ensure that he understands the nature and risks of China Connect and Northbound trading and he should consider carefully (and consult his own advisers where necessary) whether trading in China Connect Securities is suitable for him in light of his circumstances. The decision to trade in China Connect Securities is the Client's, but he should not trade in China Connect Securities unless he fully understands and is willing to assume the risks associated with China Connect. The Client acknowledges the risks, and agrees to the terms, set out in this Appendix.

The Broker does not represent that the information set out in this Appendix is up to date or comprehensive, and does not undertake to update the information set out in this Appendix.

1. Pre-Trade Checking

Under PRC law, SSE or SZSE may reject a sell order if an investor does not have sufficient available China Connect Securities in its account. SEHK will apply similar checking on all Northbound sell orders at the Exchange Participant level to ensure there is no overselling by any Exchange Participant ("**Pre-Trade Checking**"). Accordingly, the Client will comply with any requirements relating to Pre-Trade Checking required by the China Connect Authorities and/or as notified to the Client by the Broker. The Client will in addition ensure there are sufficient available China Connect Securities in the Client's account to cover any proposed sell order.

2. Settlement

Northbound trades will follow the A-Share settlement cycle. For settlement of China Connect Securities trades, CSDCC will debit or credit the securities accounts of its participants (including HKSCC as clearing participant) on T day free of payment. The Broker may have settlement arrangements in place different from the CSDCC settlement arrangements. Unless the Broker agrees to pre-fund, settlement of funds relating to such trading will be effected on T+1 day. Where any China Connect Securities have been overbought or oversold (notwithstanding any Pre-Trade Checking arrangements), there may be a delay in settlement due to a delay or failure by the Broker's system for reconciliation of orders.

Although the transfer of the China Connect Securities precedes the transfer of cash, under the China Connect Service the title to China Connect Securities will not be released until the receipt of confirmation of payment. Accordingly, for the purpose of contract notes, the settlement date would be T+1 day when both the securities and the cash are settled or, where the purchase is pre-funded (by way of a debit of available funds in the Client's account upon placement of the order and a corresponding cash prepayment by the Broker to HKSCC), the settlement date would be the date on which the securities are released from hold (usually on T day).

3. Quota Restrictions

Purchases of China Connect Securities through China Connect are subject to certain quota controls as described below. As a result, there is no assurance that a buy order can be successfully placed through China Connect. There is a quota limiting the maximum net value of all Northbound buy trades that can be executed by Exchange Participants while China Connect is in operation ("**Aggregate Quota**"). There is also a daily quota limiting the maximum value of all Northbound buy trades that can be executed by Exchange Participants on each Trading Day ("**Daily Quota**"). The Aggregate Quota and/or the Daily Quota may change from time to time

without prior notice and the Client is advised to refer to the HKEx website and other information published by HKEx for up-to-date information.

Under the China Connect Rules, Northbound selling is permitted regardless of whether the Aggregate Quota or Daily Quota has been reached. If there is a restriction, rejection or suspension of Northbound buying as a result of (a) the Daily Quota being fully utilised, or (b) the balance of the Aggregate Quota falling below the Daily Quota, the Broker will be unable to carry out any further buy orders.

4. Restriction on Day Trading

Unless SEHK otherwise determines, day (turnaround) trading is not permitted on the PRC A-Share market. If the Client buys China Connect Securities on T day, the Client may be able to sell the China Connect Securities only on or after settlement has been completed (normally on T+1 day). Due to Pre-Trade Checking requirements, the Broker may process an Instruction to sell China Connect Securities that were bought on T day only on or after the applicable cut-off time (as notified to the Client by the Broker from time to time) on T+1 day subject to any Market Requirements.

5. Disclosure of Interests

Under PRC laws, rules and regulations, if the Client holds or controls shares (on an aggregate basis, i.e., including both domestically and overseas issued shares of the same PRC Listco (as defined below), whether the relevant holdings are through Northbound trading, the QFII/RQFII regime or other investment channels) in a PRC incorporated company which is listed on a PRC stock exchange (a "**PRC Listco**") up to a certain threshold (as may be specified from time to time by the relevant China Connect Authorities), the Client must disclose such interest within the period specified by the relevant China Connect Authority, and the Client must not buy or sell any such shares within the period specified by the relevant China Connect Authority. The Client must also disclose any substantial change in his holding as required by the relevant China Connect Authority.

Under Hong Kong law, where a PRC incorporated company has both H Shares listed on SEHK and A-Shares listed on SSE or SZSE, if an investor is interested in more than a certain threshold (as may be specified from time to time) of any class of voting shares (including A-Shares purchased through China Connect) in such PRC incorporated company, the investor is under a duty of disclosure pursuant to Part XV of the SFO. Part XV of the SFO does not apply where the PRC incorporated company has not listed any shares on SEHK.

It shall be the Client's responsibility to comply with any disclosure of interest rules from time to time imposed by the relevant China Connect Authorities and to arrange for any relevant filings.

6. Short Swing Profit Rule

Under PRC laws, rules and regulations, the "short swing profit rule" requires the Client to give up/ return any profits made from purchases and sales in respect of China Connect Securities of a particular PRC Listco if (a) the Client's shareholding in such PRC Listco exceeds the threshold prescribed by the relevant China Connect Authority from time to time and (b) the corresponding sale transaction occurs within the six months after a purchase transaction, or vice versa. The Client (and the Client alone) must comply with the "short swing profit rule". The Broker shall have no responsibility to alert the Client or otherwise assist the Client in complying with the "short swing profit rule".

7. Foreign Ownership Limits

Under PRC laws, rules and regulations, there is a limit to how many shares a single foreign investor is permitted to hold in a single PRC Listco, and also a limit to the maximum combined holdings of all foreign investors in a single PRC Listco. Such foreign ownership limits may be applied on an aggregate basis (i.e. across both domestically and overseas issued shares of the same issuer, whether the relevant holdings are through Northbound trading, the QFII/RQFII regime or other investment channels). It shall be the Client's responsibility to comply with all foreign ownership limits from time to time imposed by Market Requirements. In addition, in accordance with Clause 4.2 above, the Broker shall have the right to apply any procedure or requirements which the Broker determines in its absolute discretion to be necessary or desirable to comply with any foreign ownership limits from time to time including (for example, and without limitation) imposing any threshold on the Client that is lower than the foreign ownership limits prescribed by any China Connect Authority. Such legal and regulatory restrictions or limitations may have an adverse effect on the liquidity and performance of an investment in China Connect Securities due to factors such as limitations on fund repatriation, dealing restrictions, adverse tax treatments, higher commission costs, regulatory reporting requirements and reliance on services of local custodians and service providers. As a result, the Client may suffer losses through his trading, holding or investment of or in China Connect Securities.

If the Broker becomes aware that the Client has breached (or reasonably believes that the Client may breach upon execution of further Northbound buy orders) any foreign ownership limits, or if the Broker is so required by any China Connect Authority, including without limitation, as a result of any Forced-sale Notice issued by SSE or SZSE, the Broker will sell any China Connect Securities pursuant to Clause 8 (Sale, Transfer and Disgorgement) above in order to ensure compliance with all Market Requirements. In such case, no China Connect Securities buy orders for the relevant China Connect Securities will be accepted until SSE or SZSE informs the SEHK Subsidiary or SEHK that the aggregate foreign shareholding has fallen below a certain percentage. SEHK may determine in its absolute discretion which Exchange Participants and what quantity of China Connect Securities should be subject to a Forced-sale Notice (this is generally likely to be on a "last-in, first-out" basis), and SEHK's (or the SEHK Subsidiary's) own records shall be final and conclusive.

Moreover, under PRC laws, where the aggregate holding of foreign investors exceeds a specified percentage (the "**Cautionary Level**") of the issued shares of a single PRC Listco, upon notification by SSE or SZSE to the SEHK Subsidiary, SEHK and the SEHK Subsidiary are required as soon as practicable thereafter to suspend accepting China Connect Securities buy orders in respect of the relevant China Connect Securities. In such circumstances, the Broker may reject the Client's buy order Instructions until the aggregate shareholding of foreign investors has fallen below a specified percentage (the "**Permitted Level**") as advised by SSE or SZSE from time to time.

As of the date of these Stock Connect Terms and Conditions, the single foreign investor limit is set at 10% of the shares of a PRC Listco and the aggregate foreign investor limit is set at 30% of the shares of a PRC Listco (while the Cautionary Level and the Permitted Level are set at 28% and 26% respectively of the shares of a PRC Listco). Such limits and levels are subject to change from time to time and the Broker shall not be under any obligation to inform the Client of any such changes relating to foreign ownership limits.

8. SSE-listed Shares and SZSE-listed Shares Eligible for Northbound Trading

SEHK will include and exclude securities as China Connect Securities based on the prescribed criteria under the China Connect Rules, any adjustments made to the SSE 180 Index, the SSE 380 Index, the SZSE Component Index and the SZSE Small/Mid Cap Innovation Index, any relevant A-Shares and H-Shares being listed on or delisted from SSE, SZSE and/or SEHK, and any

relevant A-Shares being placed under or released from risk alert. The Broker shall not be under any obligation to inform the Client of any changes to the eligibility of shares for Northbound trading. The Client should refer to the HKEx website and other information published by HKEx for up-to-date information.

According to the SSE Listing Rules and the SZSE Listing Rules, if any SSE or SZSE-listed company is in the delisting process, or its operation is unstable due to financial or other reasons such that there is a risk of being delisted or exposing investors' interests to undue damage, the SSE or SZSE-listed company will be earmarked and traded on the risk alert board. Any change to the risk alert board may occur without prior notice. If a China Connect Security has been placed under risk alert, it ceases to be a China Connect Security and investors under China Connect will be allowed only to sell it and are prohibited from further buying. For details concerning the risk alert board, please refer to the SSE Listing Rules, the SZSE Listing Rules, the SSE Risk Alert Board Provisional Trading Arrangement and any other relevant sources from time to time.

9. No Off-exchange Trading and Transfers

The Client, the Broker and any Related Person shall not trade or provide services to facilitate trading of any China Connect Securities otherwise than through the China Connect Market System, and the Broker shall not (unlike the current practice in Hong Kong in respect of SEHK-listed shares) match, execute or arrange the execution of any sale and purchase Instructions or any transfer Instructions from the Client or effect any Non-trade Transfer or settlement of transaction in respect of any China Connect Securities in any manner otherwise than through China Connect in accordance with the China Connect Rules, except in the circumstances specified in the China Connect Rules or any other situations specified by SSE, SZSE and CSDCC (including but not limited to any Non-trade Transfer as a result or for the purpose of (a) succession; (b) divorce; (c) dissolution, liquidation or winding up of any company or corporation; (d) donation to a charitable foundation; and (e) assisting in any enforcement action or proceedings of any court, prosecutor or law enforcement agency) or as otherwise provided by a relevant China Connect Authority.

The Client acknowledges that the rule against off-exchange trading and transfers under Northbound trading may delay or disrupt reconciliation of orders by the Broker. The Broker shall not be responsible or held liable for any loss or damage directly or indirectly suffered by the Client arising from this rule, including, without limitation, any loss arising from any delay in settlement of trades.

10. Placing Orders

Only limit orders with a specified price are allowed pursuant to Market Requirements, whereby buy orders may be executed at or lower than the specified price and sell orders may be executed at or higher than the specified price. Market orders will not be accepted.

11. Price Limits and Circuit Breakers

China Connect Securities are subject to a general price limit of a $\pm 10\%$ based on the previous Trading Day's closing price (and a price limit of $\pm 5\%$ where the China Connect Securities are on risk alert). The price limit may be changed from time to time. All orders in respect of China Connect Securities must be within the price limit. Any orders with a price beyond the price limit will be rejected by SSE or SZSE.

China Connect Securities are also subject to the Circuit Break Provisions under the SSE Rules and the SZSE Rules. The imposition of a SSE or SZSE Circuit Breaker may result in the suspension of the execution of trades of the relevant China Connect Securities through the China

Connect Market System for such period or periods as set out under the Circuit Breaker Provisions.

12. Taxation

Whether PRC capital gains tax and/or other PRC Taxes will be payable on the trading of China Connect Securities under China Connect is subject to clarification by the SAT. In addition and without prejudice to any of the Broker's rights under the Master Terms and Conditions, the Client will be fully and solely responsible for any and all his liabilities and obligations for any Taxes in respect of China Connect Securities including, without limitation, any capital gains tax or other PRC Taxes, and will indemnify the Broker from and against all Hong Kong and/or PRC Taxes which the Broker may incur or be subject to arising in connection with any China Connect Securities which the Client holds, trades or otherwise deals in. Neither the Broker nor any Related Person assumes any responsibility for advising on or handling any tax issues, liabilities and/or obligations in connection with China Connect, and neither the Broker nor any Related Person will provide any service or assistance in this regard. The Client acknowledges and agrees that the Broker shall have no responsibility to act as tax agent, representative or adviser of the Client in respect of any Taxes. Prior to investing in China Connect Securities, the Client is strongly urged to consult his own tax advisers and counsel with respect to the possible tax consequences to him of such investment since such tax consequences may differ in respect of different investors.

Without prejudice to the foregoing and any other right or remedy which the Broker may have, the Broker shall be entitled in its absolute discretion, without further notice or demand, forthwith to satisfy any obligation of the Broker or any Related Person or the Client to pay or account for any amounts in respect of any Taxes by selling, realising or otherwise dealing with (including but not limited to withholding or deducting any amount towards Taxes), in such manner as the Broker in its absolute discretion may determine, all or part of any property held by the Broker or any Related Person for any purpose in any of the Client's accounts held with the Broker or any Related Person, and to apply the proceeds in reduction of all or part of the Client's liability to the Broker or any Related Person. Neither the Broker nor any Related Person shall have any liability for any losses or risks which may result to the Client directly or indirectly from any actions taken by the Broker or any Related Person in respect of the foregoing.

13. Client Securities Rules

By way of brief background, the Client Securities Rules prescribe how client assets are to be dealt with by all intermediaries and their associated entities. However, as the China Connect Securities traded through China Connect are not listed or traded on SEHK, the Client will not have protection under the Client Securities Rules, unless otherwise specified by the SFC or any other relevant China Connect Authority.

14. Investor Compensation Fund

Trading in China Connect Securities does not enjoy the protection afforded by the Investor Compensation Fund established under the SFO. Accordingly, unlike the trading of SEHK-listed securities, the Client will not be covered by the Investor Compensation Fund in respect of any loss he may sustain by reason of a default by any SFC licensed or registered person.

15. Ownership of China Connect Securities

China Connect Securities are held in CSDCC. HKSCC will become a direct participant in CSDCC and China Connect Securities acquired by investors through Northbound Trading will be:

- (a) recorded in the name of HKSCC in the nominee securities account opened by HKSCC with CSDCC and HKSCC will be nominee holder of such China Connect Securities; and
- (b) held in custody by the depository of CSDCC and registered in the shareholders' register of the relevant PRC Listco.

HKSCC will record interests in such China Connect Securities in the CCASS stock account of the relevant CCASS Clearing Participant.

Under Hong Kong law, HKSCC will be regarded as the legal owner of such China Connect Securities and will be regarded as holding the beneficial entitlement to the China Connect Securities on behalf of the relevant Clearing Participant(s). Depending on the custody arrangements between a Clearing Participant and its Hong Kong or overseas clients, such Clearing Participant will in turn generally be regarded as holding the beneficial entitlement for such Hong Kong or overseas clients.

Under current PRC regulations, China Connect Securities will be recorded in a nominee account opened by HKSCC with CSDCC and Northbound investors have rights and interests in China Connect Securities acquired through China Connect according to the applicable laws. The CSRC Securities Registration and Settlement Measures, CSDCC Securities Registration Rules and Administrative Rules on Securities Accounts, the CSDCC China Connect Rules, the SSE China Connect Rules and the SZSE China Connect Rules generally provide for the concept of a "nominee holder" and recognise the Northbound investors as the "ultimate owners" of China Connect Securities.

Northbound investors shall exercise their rights in relation to China Connect Securities through HKSCC as the nominee holder. As Northbound investors will have actual control over voting rights in respect of such China Connect Securities (either individually or acting in concert with others), Northbound investors are responsible for complying with disclosure obligations under PRC laws and regulations in relation to China Connect Securities acquired through Northbound trading.

However, the precise nature and rights of a Northbound investor as the beneficial owner of China Connect Securities through HKSCC as nominee are less well defined under PRC law. There is lack of a clear definition of, and distinction between, "legal ownership" and "beneficial ownership" under PRC law and there have been few cases in the PRC courts concerning a nominee account structure. Therefore the exact nature and methods of enforcement of the rights and interests of Northbound investors under PRC law are not free from doubt.

HKEx has published materials explaining the ownership rights of Northbound investors in China Connect Securities and may publish further information from time to time. In summary, the HKEx published materials state that:

- (a) it is the Hong Kong and overseas investors as the ultimate investors (rather than any broker, custodian or intermediary through whom such investors hold the China Connect Securities) who should be recognised under PRC laws and regulations as having beneficial ownership in the China Connect Securities;
- (b) as key functions of a nominee holder, HKSCC will be responsible for collecting and distributing dividends to its participants (for their own account and/or as agent for their investors) and obtaining and consolidating voting instructions from its participants and submitting a combined single voting instruction to the issuer of the relevant China Connect Securities. However, under the CCASS China Connect Rules, HKSCC as nominee holder shall have no obligation to take any legal action or court proceeding to

enforce any rights on behalf of the investors in respect of China Connect Securities in the PRC or elsewhere; and

- (c) on the insolvency of HKSCC, the China Connect Securities would not be regarded as the general assets of HKSCC under Hong Kong and PRC law and would not be available to the general creditors of HKSCC. CSDCC and the PRC courts would recognise the liquidator of HKSCC, duly appointed pursuant to Hong Kong law, as the rightful person to deal with China Connect Securities in the place of HKSCC.

The Client should conduct his own review of the HKEx published materials and the applicable China Connect Rules from time to time. The Client should also consult his own legal advisers to make his own assessment of his rights as a Northbound investor in China Connect Securities.

16. Amendment of Orders and Loss of Priority

Consistent with the current practice in the PRC, if an investor engaged in Northbound trading wishes to amend an order, the investor must first cancel the original order and then input a new one. Accordingly, order priority will be lost and, subject to the Daily Quota and Aggregate Quota restrictions (see paragraph 3 above), the subsequent order may not be filled on the same Trading Day.

17. Risk of CSDCC Default

CSDCC has established a risk management framework and measures that are approved and supervised by the CSRC. If CSDCC (as the host central counterparty) defaults, HKSCC may (but shall have no obligation to) take any legal action or court proceeding to seek recovery of the outstanding China Connect Securities and monies from CSDCC through available legal channels and through CSDCC's liquidation process, if applicable. As CSDCC does not contribute to the HKSCC guarantee fund, HKSCC will not use the HKSCC guarantee fund to cover any residual loss as a result of closing out any of CSDCC's positions. HKSCC will in turn distribute China Connect Securities and/or monies recovered to clearing participants on a pro-rata basis as prescribed by the relevant China Connect Authorities. The Broker in turn will be distributing China Connect Securities and/or monies only to the extent recovered directly or indirectly from HKSCC. Although the likelihood of a default by CSDCC is considered to be remote, investors should be aware of this arrangement and of this potential exposure before engaging in Northbound trading.

18. Risk of HKSCC Default

The Broker's provision of services pursuant to these Stock Connect Terms and Conditions also depends upon the performance by HKSCC of its obligations. Any action or inaction of HKSCC or a failure or delay by HKSCC in the performance of its obligations may result in a failure of settlement, or the loss, of China Connect Securities and/or monies in connection with them and the Client may suffer losses as a result. Neither the Broker nor any Related Person shall have any responsibility or liability for any such losses.

19. Scripless Securities

China Connect Securities are traded in scripless form, and accordingly China Connect Securities may not be physically deposited into and/or withdrawn from CCASS.

20. Company Announcements on Corporate Actions

Any corporate action in respect of China Connect Securities will be announced by the relevant

issuer through the SSE or SZSE website and certain officially appointed newspapers. HKSCC will also record all corporate actions relating to China Connect Securities in CCASS and inform its clearing participants of the details via the CCASS terminals as soon as practicable on the announcement date. Investors engaged in Northbound trading may refer to the SSE or SZSE website and the relevant newspapers for the latest listed company announcements or, alternatively, the HKEx website's China Stock Markets Web (or such other replacement or successor web-page from time to time) for corporate actions in respect of China Connect Securities issued on the previous Trading Day. Investors should note that SSE or SZSE-listed issuers publish corporate documents in Chinese only and English translations will not be available.

Following existing market practice in the PRC, investors engaged in Northbound trading will not be able to attend shareholder meetings by proxy or in person, unlike the current practice in Hong Kong in respect of SEHK-listed shares.

In addition, HKSCC will endeavour to collect and distribute cash dividends relating to China Connect Securities to clearing participants in a timely manner. Upon receipt of the dividend amount, HKSCC will to the extent practicable arrange to distribute to relevant clearing participants on the same day.

The Broker shall have no obligation whatsoever to collect or receive or take any other action (including attending any general meeting and/or exercising any voting right) in relation to any payment or distribution or voting in respect of China Connect Securities for the Client's account or to notify the Client of the existence of or the terms of any notice, circular, report, announcement or similar corporate action in respect of China Connect Securities. If the Broker shall make any such collection or receipt, take any such action or give the Client any such notification or shall take any action pursuant to any such notification, the Broker shall not have:

- (a) any liability in respect of any inaccuracies or delays; and
- (b) any obligation to continue or repeat any such action.

The Broker does not and cannot ensure the accuracy, reliability or timeliness of any company announcements of corporate actions, and neither the Broker nor any Related Person accepts any liability (whether in tort or contract or otherwise) for any loss or damage arising from any errors, inaccuracies, delays or omissions or any actions taken in reliance thereon. The Broker expressly disclaims all warranties, express or implied, as to the accuracy of any company announcement or as to the fitness of the information for any purpose.

21. Disclosure of Information and Publication of Trade Information

SEHK may require the Broker to provide information on the Client's profile, and the type and value of the Client's orders in relation to Northbound trading of China Connect Securities and the trades which the Broker executed for the Client, at such intervals and in such form as SEHK may specify from time to time for purposes of the publication, dissemination or public distribution of aggregated information in respect of China Connect Securities trades under China Connect, trading volumes, investor profiles and other related data.

In addition, the Client will provide to the Broker, promptly upon request by the Broker, such materials and/or information as may be required by the Broker or any China Connect Authority including, without limitation, any information relating to China Connect trades executed by the Client through Exchange Participants other than the Broker, where the China Connect Securities in respect of such trades have been transferred to the Broker for sale, and the Client hereby expressly consents to the disclosure by the Broker of any of the foregoing materials and/or

information and any Client Information to any China Connect Authority as the Broker deems necessary to comply with any Market Requirements.

22. Retention of Information

The Client acknowledges and accepts that the Broker will be required under the China Connect Rules to keep records for a period of not less than 20 years of (a) all orders and trades executed on the Client's behalf; (b) any Instructions received from the Client; and (c) the Client's account information in relation to Northbound trading.

23. Client Error

Neither the Broker nor any Related Person shall be liable for any loss, damage or expense or consequential loss, damage or expense suffered by the Client as a result of any trading based on the Client's Instructions. The Broker will not be able to unwind any trade, and the Client should also take note of the settlement arrangements in respect of China Connect Securities, including, but not limited to, quota restrictions, which may affect the Client's ability to mitigate the consequences of any error trades.

The China Connect Rules generally prohibit any off-exchange trading or transfers. However, transfers may be permitted between Exchange Participants and their clients to rectify an error trade in limited circumstances, although there is a lack of clarity as to the circumstances in which such transfers may be permitted. Any Exchange Participant who performs a Non-trade Transfer to rectify an error trade will be required to submit to SEHK an error trade report together with supporting documents explaining how the error was made and providing details of the Non-trade Transfer. SEHK has the power to disallow a particular Exchange Participant to conduct Non-trade Transfers for error trade rectification if SEHK has reasonable cause to suspect or to believe that the Exchange Participant may abuse or may have abused such rectification arrangements or may have used such rectification arrangements to circumvent the prohibition against off-exchange trades or transfers. SEHK may provide error trade reports and related information to the SFC and SSE or SZSE. Exchange participants are warned by SEHK not to misuse this arrangement to effect off-exchange trades or transfers which are otherwise disallowed under the relevant China Connect Rules. The Broker shall have absolute discretion to determine whether to conduct any transfer to rectify any error trade and shall have no obligation to do so. Neither the Broker nor any Related Person shall have any liability for any losses which may result directly or indirectly from any error trade or any refusal to conduct a transfer to correct an error trade.

24. Operation of China Connect Service/Novelty of China Connect Market System

SEHK or the SEHK Subsidiary (after consulting with SEHK) may, under certain circumstances as specified in the SEHK rules and/or whenever SEHK determines that it is appropriate and in the interest of a fair and orderly market to protect investors, temporarily suspend or restrict all or part of the order-routing and related supporting services with regard to all or any Northbound trading of China Connect Securities, and for such duration and frequency as the SEHK may consider appropriate. The Client will not be able to buy or sell China Connect Securities through China Connect during any period in which trading of China Connect Securities is suspended. In particular, the Client should note that while trading of China Connect Securities is suspended by SEHK, trading of such China Connect Securities may continue on SSE or SZSE. The Client may remain exposed to fluctuations in the price of China Connect Securities caused by trading on SSE or SZSE during the period when trading of such China Connect Securities is suspended by SEHK.

SEHK has absolute discretion to change the operational hours and arrangements of the China Connect Service at any time and without advance notice, whether on a temporary basis, due to operational needs, inclement weather, under emergency situations or otherwise. Moreover, SEHK

or the SEHK Subsidiary (with the agreement of SEHK) may cease the provision of the China Connect Northbound trading service permanently.

Such suspension, restriction or cessation will affect the Broker's ability to accept and process the Client's orders and the Client is advised to refer to the HKEx website and other information published by HKEx for up-to-date information. There can be no assurance that the Client's orders will be accepted or processed, notwithstanding that China Connect Securities may be traded through other channels including, without limitation, by PRC investors on SSE or SZSE.

Further, the SEHK Rules state that, where any H Shares with corresponding A-Shares eligible as China Connect Securities are suspended from trading on SEHK, but the corresponding A-Shares are not suspended from trading on SSE or SZSE, the service for routing the China Connect sell orders and China Connect buy orders for such A-Shares to SSE or SZSE for execution will normally remain available. However, SEHK may, in its discretion, restrict or suspend such service without prior notice and the Client's ability to place sell orders and buy orders may be affected.

In addition, the China Connect Market System is a new platform for trading of China Connect Securities under China Connect. The Broker provides trading services based on the China Connect Market System which is operated by SSE or SZSE. The Broker is not responsible for any delay or failure caused by the China Connect Market System and investors accept all risks arising from trading China Connect Securities through the China Connect Market System. Neither the Broker nor any Related Person shall be responsible or held liable for any loss or damage directly or indirectly suffered by the Client arising from or in connection with the China Connect Service or the CSC through Northbound trading including, without limitation, the following:

- (a) a suspension, restriction or cessation of the China Connect Service or the CSC, or any inability to access or use the CSC or the China Connect Service;
- (b) any special arrangement put in place or any action, step or measure taken or not taken to deal with an emergency, including but not limited to the cancellation of any or all China Connect orders input by Exchange Participants;
- (c) any suspension, delay, interruption or cessation of trading of any China Connect Securities on SSE or SZSE or through SEHK;
- (d) any delay, suspension, interruption or order cancellation of any China Connect Securities as a result of the hoisting of a Typhoon Signal No. 8 or above or the issuance of the Black Rainstorm Warning in Hong Kong;
- (e) any delay or failure to route any China Connect orders or any delay or failure to send any order cancellation requests or to provide the China Connect Service, due to any system, communication or connection failure, power outage, software or hardware malfunction or other event beyond the control of SEHK, the Broker or any Related Person;
- (f) any circumstance in which a China Connect order which a China Connect Exchange Participant has requested to be cancelled is not cancelled for any reason whatsoever;
- (g) any delay, failure or error of any China Connect Market System or any system upon which the SEHK Subsidiary, the Broker or any Related Person is reliant in providing the China Connect Service; and
- (h) any delay or failure to execute, or any error in matching or executing, any China Connect order due to any reason beyond the control of SEHK, HKEx or the SEHK Subsidiary, the

Broker or any Related Person (including, without limitation, any action or decision taken or made, or not taken or made, by SSE or SZSE, any China Connect Authority or any other relevant governmental or regulatory body).

If there is any delay or failure to send any order cancellation request in any circumstance described in paragraph (e) or (f) above, the Client shall, in the event such order is matched and executed, remain responsible to fulfil any settlement obligations in respect of such transaction.

25. Operational Hours

SEHK has absolute discretion to determine from time to time the operational hours of the China Connect Service, and will have absolute discretion to change the operational hours and arrangements of the China Connect Service at any time and without advance notice, whether on a temporary basis or otherwise. The Broker shall not be under any obligation to inform the Client of any such determination by SEHK as to the operational hours of the China Connect Service. Any such change to the operational hours and arrangements with respect to the China Connect Service may affect the Broker's ability to accept and/or process the Client's orders and/or to provide, in a timely manner, any China Connect trading services generally.

Where, for example, there is any price sensitive information relating to a PRC Listco during a time when the China Connect Service is not in operation, the A-Shares of the PRC Listco may continue to trade on SSE or SZSE and the price of such A-Shares may move significantly. In such case, Northbound investors will not be able to trade in such shares until the next available Trading Day under China Connect.

26. Rights Issuances

Where a Hong Kong or overseas investor receives any form of entitlement security from the issuer of a China Connect Security, if such entitlement security:

- (a) is a China Connect Security, Hong Kong and overseas investors will be allowed to buy and sell the entitlement security through China Connect;
- (b) is not a China Connect Security but is a RMB-denominated security listed on SSE or SZSE, Hong Kong and overseas investors may be permitted to sell the entitlement security through China Connect but will not be permitted to buy such entitlement security;
- (c) is an SSE or SZSE-listed security but is not traded in RMB, Hong Kong and overseas investors will not be allowed to buy or sell the entitlement security through China Connect. HKEx has stated that SSE or SZSE and SEHK will consult each other to agree on the appropriate treatment of the entitlement security; or
- (d) is not listed on SSE or SZSE, Hong Kong and overseas investors will not be allowed to buy or sell the entitlement security on China Connect unless and until appropriate arrangements (if any) have been provided by HKSCC. It is possible that no such arrangements will be provided.

27. Odd Lot Trading

Odd lot trading in China Connect Securities is available only for sell orders and all odd lots must be sold in one single order. A board lot order may be matched with different odd lot sell orders, resulting in odd lot trades. Board lot and odd lot orders are matched on the same platform on China Connect and subject to the same share price. The maximum order size is 1 million shares and the tick size is uniformly set at RMB0.01.

28. Risks associated with investing in China Connect Securities

PRC-related risks

Investing in the PRC, an emerging market, involves special considerations and risks, including without limitation greater price volatility, less developed regulatory and legal framework, economic, and social and political instability.

Market risk

The market value of China Connect Securities and the income from them may go down as well as up. There can be no assurance that the Client will achieve profits or avoid losses from trading China Connect Securities, significant or otherwise. The return the Client receives from China Connect Securities (if any) will fluctuate in response to changes in capital appreciation and/or income relating to such China Connect Securities. Furthermore, China Connect Securities may experience volatility and decline depending on market conditions. Through trading China Connect Securities, the Client is exposed to various forms of risk, including (for example) interest rate risks (risks of falling China Connect Securities values in a rising interest rate market), income risks (risks of falling incomes from China Connect Securities in a falling interest rate market) and credit risk (risk of a default by an issuer of China Connect Securities).

Possible business failure risk

In the current economic environment, global markets are experiencing very high levels of volatility and an increased risk of corporate failures. The insolvency or other corporate failure of any issuer of China Connect Securities may have an adverse effect on the Client's investment. The Client may lose money by investing in China Connect Securities.

Equity risk

Investing in China Connect Securities may offer a higher rate of return than investing in short term and longer term debt securities. However, the risks associated with investments in China Connect Securities may also be higher, because the investment performance of China Connect Securities depends upon factors which are difficult to predict. Such factors include the possibility of sudden or prolonged market declines and risks associated with individual companies.

Dividend risk

Whether an issuer of China Connect Securities will pay distributions is subject to such issuer's dividend policy. Dividend payment rates in respect of China Connect Securities may depend on factors including general economic conditions and the financial positions of the relevant issuers. There can be no assurance that any dividends or distributions in respect of China Connect Securities will be declared or paid.

Liquidity risks

Although China Connect Securities are listed for trading on SSE or SZSE and available for trading through SEHK by China Connect, there can be no assurance that an active trading market for China Connect Securities will develop or be maintained. If spreads on China Connect Securities are wide, this may adversely affect the Client's ability to dispose of China Connect Securities at the desired price. If the Client needs to sell China Connect Securities at a time when no active market for them exists, the price the Client receives for his China Connect Securities — assuming he is able to sell them — is likely to be lower than the price received if an active market

did exist.

General legal and regulatory risk

The Client must comply with all Market Requirements. Furthermore, any change in any Market Requirements may have an impact on the market sentiment which may in turn affect the performance of China Connect Securities. It is impossible to predict whether such an impact caused by any such change will be positive or negative for China Connect Securities. In the worst case scenario, the Client may lose a material part of his investments in China Connect Securities.

Currency risk

The value of RMB against Hong Kong dollars or other foreign currencies may be affected by a wide range of factors. There is no guarantee that RMB will not depreciate. A depreciation of RMB may result in a decrease in the market value of RMB securities and the realisation price of RMB securities. Non-RMB based investors who are trading in RMB securities may also sustain loss in the event that they subsequently convert any RMB proceeds back to Hong Kong dollars or other base currencies.

There are also significant restrictions on the remittance of RMB into and out of the PRC. If the issuer of RMB securities is not able to remit RMB to Hong Kong or make distributions in RMB due to exchange controls or other restrictions, the issuer may make distributions (including dividends and other payments) in other currencies. Investors may therefore be exposed to additional foreign exchange risk and liquidity exposures.

The liquidity and trading price of China Connect Securities may be adversely affected by the limited availability of RMB outside the PRC and restrictions on the conversion of RMB. These factors may affect the liquidity of RMB for investors and accordingly adversely affect the market demand for China Connect Securities.

ChiNext Shares

Investing in ChiNext Shares is generally classified as high risk. In particular, profitability and other financial requirements for listing on the ChiNext Board are less stringent than the Main Board and the Small and Medium Enterprise Board of the SZSE. The Client is advised to consider carefully before making any decision to invest in ChiNext Shares.

Companies listed on the ChiNext Board of the SZSE include enterprises which are start-ups and growth enterprises with small operating scale and share capital, many of which are in the innovation and technology sector. Stock prices of these companies may be more susceptible to manipulation due to fewer circulating shares. Accordingly, the ChiNext Shares may be very volatile and illiquid. In addition, current information on such companies may be limited and may not be widely available.

Comparing to the Main Board and the Small and Medium Enterprise Board of the SZSE, the process of delisting of a company on the ChiNext Board is much easier. Thus, it is more common for companies on the ChiNext Board to get delisted. The ChiNext Shares of the delisted company will likely become very illiquid. There is a risk that the Client may suffer a total loss of its investment in the ChiNext Shares of the delisted company.

The Client should seek independent professional advice if the Client is uncertain of or has not understood any aspect of the risk disclosure and information set out in this appendix or the nature and risks involved in trading ChiNext Shares.

SCHEDULE 1

RISK DISCLOSURE STATEMENTS

The financial markets present many different risks of which the Client should be aware prior to investing. This risk disclosure statement is not exhaustive and may be amended or supplemented by additional risk disclosures from time to time.

Risk of Securities Trading

The Client acknowledges that the prices of securities fluctuate, sometimes dramatically. The price of a security may move up or down and may become valueless. It is as likely that losses will be incurred rather than profit made as a result of buying and selling securities.

Commissions and Other Charges

Before beginning to trade, The Client should obtain a clear explanation of all commission, fees and other charges for which the Client will be liable. These charges will affect the Client's net profit (if any) or increase the Client's loss.

Risk of Trading Growth Enterprise Market Stocks

Growth Enterprise Market (GEM) stocks involve a high investment risk. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. GEM stocks may be very volatile and illiquid.

The Client should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Current information on GEM stocks may only be found on the internet website operated by The Stock Exchange of Hong Kong Limited. GEM companies are usually not required to issue paid announcements in gazetted newspapers.

The Client should seek independent professional advice if the Client is uncertain of or has not understood any aspect of this risk disclosure statement or the nature and risks involved in trading of GEM stocks.

Risk of Client's Assets Received or Held outside Hong Kong

The Client's assets received or held by the Broker outside Hong Kong are subject to the applicable laws and regulations of the relevant overseas jurisdiction which may be different from the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) and the rules made thereunder.

Consequently, such client assets may not enjoy the same protection as that conferred on client assets received or held in Hong Kong.

Specific Risk Relating to Investing in Overseas Securities

The Client acknowledges and agrees that investment in foreign securities carry additional risks not generally associated with securities in the domestic market. The value or income of foreign securities may be more volatile and could be adversely affected by changes in foreign taxation practices, foreign laws, government practices, regulations and political events. The Client may find it more difficult to

liquidate investments in foreign securities where they have limited liquidity in the relevant market. Foreign laws, government practices and regulations may also affect the transferability of foreign securities. Timely and reliable information about the value or the extent of the risks of foreign securities may not be readily available at all times.

Such markets may be subject to regulation which may offer different or diminished investor protection. Before the Client trades the Client should enquire about any rules relevant to the Client's particular transactions. The Client's local regulatory authority will be unable to compel the enforcement of the rules of regulatory authorities or markets in other jurisdictions where the Client's transactions have been effected. the Client should ask the firm with which the Client deals for details about the types of redress available in both the Client's home jurisdiction and other relevant jurisdictions before the Client starts to trade.

The profit or loss in transactions in foreign currency-denominated contracts (whether they are traded in the Client's own or another jurisdiction) will be affected by fluctuations in currency rates where there is a need to convert from the currency denomination of the contract to another currency.

Specific Risk Relating to Securities Denominated In Renminbi (“RMB”)

1. RMB securities are subject to exchange rate fluctuations which may provide both opportunities and risks. The fluctuations in the exchange rate of RMB may result in losses in the event that the Client converts RMB into Hong Kong dollars (“HKD”) or other foreign currencies.
2. Currently, RMB is not fully and freely convertible and conversion of RMB through banks is subject to a daily limit and other limitations as applicable from time to time. The Client should take note of the limitations and changes thereof as applicable from time to time and allow sufficient time for exchange of RMB from/to another currency if the RMB amount exceeds the daily limit.
3. The Client should open RMB bank accounts for money settlement purpose if the Client wishes to receive payments (such as sales proceeds and dividends) in RMB via banks.
4. Any RMB conversion in relation to a RMB securities transaction shown in statements and contract notes is based on the prevailing exchange rate provided by the SEHK at 11:00am or other time as stipulated by the SEHK on the relevant trade day from time to time. However, actual RMB conversion upon settlement or on any other conversion day will be based on an exchange rate determined by the Broker as a principal according to the prevailing exchange rate.
5. If the Client provides a settlement sum in a currency other than RMB, the Broker will convert the settlement sum to RMB at the exchange rate determined by the Broker as a principal according to the prevailing exchange rate.
6. RMB securities will be traded and settled in RMB. However, all trading related fees (including stamp duty, SFC transaction levy and the SEHK trading fees) shall be payable to Inland Revenue Department, SFC and Exchange by the Broker, as the case may be, on behalf of the Client in HKD.

Of the settlement sum in RMB, the Broker shall convert an amount equivalent to the trading related fees into HKD to settle the trading related fees. Any gain or loss arising from the currency exchange regarding the trading related fees shall be for the account of the Broker instead of the Client. The Client shall not have any rights to claim any gain arising from such currency conversion.

Risk Disclosure Statements Regarding Investment in Collective Investment Scheme

Investment in collective investment schemes involves risk and the Client should read the relevant constitutive documents, information memoranda, prospectuses and other offering documentation for further details.

Risk of Trading Nasdaq-Amex Securities at The Stock Exchange of Hong Kong Limited

The securities under the Nasdaq-Amex Pilot Program (PP) are aimed at sophisticated investors. The Client should consult the Broker and become familiarized with the PP before trading in the PP securities. The Client should be aware that the PP securities are not regulated as a primary or secondary listing on the Main Board or the Growth Enterprise Market of The Stock Exchange of Hong Kong Limited.

Risk Of Trading Futures And Options

The risk of loss in trading futures contracts or options is substantial. In some circumstances, the Client may sustain losses in excess of the Client's initial margin funds. Placing contingent orders, such as "stop-loss" or "stop-limit" orders, will not necessarily avoid loss. Market conditions may make it impossible to execute such orders. The Client may be called upon at short notice to deposit additional margin funds. If the required funds are not provided within the prescribed time, the Client's position may be liquidated. The Client will remain liable for any resulting deficit in the Client's account. The Client should therefore study and understand futures contracts and options before the Client trades and carefully considers whether such trading is suitable in the light of the Client's own financial position and investment objectives. If the Client trades options, the Client should inform him/herself of exercise and expiration procedures and his/her rights and obligations upon exercise or expiry.

Additional Risk Disclosure for Futures and Options Trading

This brief statement does not disclose all of the risks and other significant aspects of trading in futures and options. In light of the risks, the Client should undertake such transactions only if the Client understands the nature of the contracts (and contractual relationships) into which the Client is entering and the extent of his/her exposure to risk. Trading in futures and options is not suitable for many members of the public. The Client should carefully consider whether trading is appropriate for him/her in light of his experience, objectives, financial resources and other relevant circumstances.

Trading Facilities

Electronic trading facilities are supported by computer-based component systems for the order-routing, execution, matching, registration or clearing of trades. As with all facilities and systems, they are vulnerable to temporary disruption or failure. The Client's ability to recover certain losses may be subject to limits on liability imposed by the system provider, the market, the clearing house and/or participant firms. Such limits may vary: the Client should ask the firm with which the Client deals for details in this respect.

Electronic Trading

Trading on an electronic trading system may differ from trading on other electronic trading systems. If the Client undertakes transactions on an electronic trading systems, the Client will be exposed to risks associated with the system including the failure of hardware and software. The result of any system failure may be that the Client's order is either not executed according to the Client's instructions or is not executed at all. In particular, your attention is drawn to the following:

- (A) the internet is, and any other electronic media may also be, an inherently unreliable medium of

data transmission and communication and that, accordingly, there are risks in conducting transactions in the account through the Electronic Trading Service or otherwise communication through the internet or any other electronic media;

Such acknowledgement, confirmation or other record will only reflect transactions in the Client's account conducted through the Electronic Trading Service and that, in the case of doubt, you should contact the Broker to ascertain the status of your other transactions in the Client's account or other details relating to the Client's account.

Risk of Off-exchange Transactions

In some jurisdictions, and only then in restricted circumstances, certain firms are permitted to effect off-exchange transactions. The firm with which the Client deals may be acting as the Client's counterparty to the transaction. It may be difficult or impossible to liquidate an existing position, to assess the value, to determine a fair price or to assess the exposure to risk. For these reasons, these transactions may involve increased risks. Off-exchange transactions may be less regulated or subject to a separate regulatory regime. Before the Client undertakes such transactions, the Client should familiarize himself with applicable rules and attendant risks.

Risks of exchange-traded Derivative Warrants ("DW"), Funds that invest in derivative instruments ("ETF"), Callable Bull/Bear Contracts ("CBBC") and Equities Linked Instruments ("ELI") (collectively referred as "Derivative Products")

The following risk disclosure does not delineate all risks related to Derivative Products. If the Client has any concerns or doubts in relation to the risks of Derivative Products, the Client should obtain independent professional advice before making any investment decision. The Client should assess his own risk appetite and financial position, products features and the creditworthiness of the issuer prior to investing in Derivative Products. The Client should not invest in Derivative Products unless he fully understands and is willing to take on the risks of investing in Derivative Products, including losing all his investment capital.

General Risk of Investing in Derivative Products

1. Derivative Products are complex, leveraged investment products that involve a high degree of risk.
2. Derivative Products have limited life and will expire upon maturity. The time value of Derivative Products decreases over time and becomes worthless upon maturity, resulting in a total loss of investment capital.
3. Price volatilities of Derivative Products are much higher than that of their underlying assets. The prices of Derivative Products are determined by a number of factors, including but not limited to interest rate, time to maturity of the Derivative Products, the underlying asset price that the Derivative Products are linked to, the volatility of underlying asset price, the liquidity of the underlying securities etc. A small movement of these factors may result in a drastic price change of the Derivative Products. When two or more factors are exerting effects on a Derivative Product simultaneously, the price of the Derivative Products may become unpredictable.
4. Derivative Products can be illiquid. Trading in Derivative Products will be suspended if the trading in their underlying assets is suspended. The liquidity provider may be the only market participant for the Derivative Products and therefore the secondary market for the Derivative Products may be limited. There is no guarantee that the Client will be able to liquidate his position whenever the Client wishes.
5. The Client will be exposed to the counterparty risk associated with the Derivative Products. In the event that the issuer and/or guarantor defaults, the Client may lose all his investment capital.

Specific risk relating to DW

DW are instruments which give investors the right (but not the obligation) to buy or sell the underlying asset (e.g. a stock) at a pre-set price on or before a specified date. DW could be illiquid.

Liquidity provider of a DW is not obligated to provide bid quote for that DW if the liquidity provider determines the fair value of that DW falls below HK\$ 0.01. DW may have no value upon expiry. The Client may have to hold that DW until it expires and the Client may lose all his investment capital.

Specific risk relating to ETF

ETF may invest in stock index future contracts and other derivatives. Derivatives have a high degree of price variability and are subject to occasional rapid and substantial changes. Compared to conventional securities, derivatives can be more sensitive to changes in interest rates or to sudden fluctuations in market prices due to both the low margin deposits required, and the extremely high degree of leverage involved in derivative products. As a result, a relatively small price movement in the derivative product may result in immediate and substantial loss (or gain) to the ETF. An ETF's losses may be greater if it invests in derivatives than if it invests only in conventional securities. In addition, many derivatives are not traded on exchanges.

As a result, an ETF that engages in transactions involving derivatives is subject to the risk of the inability or refusal to perform with respect to such contracts on the part of any counterparties with which that ETF trades and as such may also expose the ETF to additional liquidity risks. This risk is also affected by the fact that over-the-counter derivatives markets are generally not regulated by government authorities and participants in these markets are not required to make continuous markets in the contracts they trade.

Even where collateral is obtained by an ETF, it is subject to the collateral provider fulfilling its obligations. There is a further risk that when the right against the collateral is exercised, the market value of the collateral could be substantially less than the amount secured resulting in significant loss to the ETF.

Specific risk relating to CBBC

A CBBC has a fixed expiry date and closely tracks the performance of an underlying asset (for example, a share, index, commodity or currency). It can be a bull or bear contract allowing the Client to take a bullish or a bearish position on the underlying asset.

A CBBC will be called by its issuer when the price of its underlying asset hits the call price. Once it is called, the contract cannot be revived and the Client will not benefit even if the underlying asset bounces back to a favorable position. Any trades executed after this mandatory call event will not be recognized and will be cancelled. The Client should be aware that CBBC is a complex leveraged investment which may not be suitable for all investors. With its gearing feature, it may magnify potential returns and potential losses as well. In the worst-case scenario, the Client may lose all of his investment. The Client should exercise special caution when the CBBC is trading close to its call price.

Although CBBC have liquidity providers, there is no guarantee that investors will be able to buy or sell CBBC at their target prices any time they wish.

Specific risk relating to ELI

ELI combines notes/deposits with options and its return component is based on the performance of the underlying asset. The maximum return is usually limited to a predetermined amount of cash. The Client may stand to lose all his investment capital if the price of the underlying asset moves substantially against his view. Most ELI are not low risk products. The Client will be taking on the credit risk of the issuer and his investment return depends primarily on the future price movement of the underlying asset(s). ELI are structured products involving derivatives. Their maximum return is capped but the potential loss can be significant. It is important that the Client reads all the relevant offer documents to fully understand the features and risks of an ELI before deciding to invest.

Specific risk relating to trading in US exchange-listed or over-the-counter securities or US derivative instruments

Before the Client trades in any security or security-like instrument in markets governed by US law, the Client should understand the US rules that apply to such trading. US law is likely to apply to trading in US markets whether or not the law of the Client's home country also applies.

Many (but by no means all) stocks, bonds and options are listed and traded on US stock exchanges. NASDAQ, which used to be an over-the-counter market among dealers, has now also become a US exchange. For exchange-listed stocks, bonds and options, each exchange promulgates rules that supplement the rules of the US Securities & Exchange Commission ("SEC") for the protection of individuals and institutions trading in the securities listed on that exchange.

Over-the-counter trading among dealers can continue in exchange-listed instruments and in instruments that are not exchange-listed at all. For securities that are not listed on any exchange, trading can continue through the over-the-counter bulletin board ("OTCBB") or through the inter-dealer "pink sheets" that carry representative (not actual) dealer quotes. These facilities are outside of NASDAQ.

Options on securities are subject to SEC rules and the rules of any securities exchange on which the options are listed. Options on futures contracts or on commodities like wheat or gold are governed by

rules of the US Commodity Futures Trading Commission (“CFTC”). There are also commercial options, like options on real estate, that are governed neither by SEC nor CFTC rules.

Whether the Client is intending to trade in US exchange-listed securities, over-the-counter securities or derivative instruments like options or futures, the Client should understand the particular rules that govern the market in which the Client is intending to trade. An investment in any of these instruments can involve a high degree of risk, but, generally speaking, the absence of exchange listing requirements tends to increase the risk and the nature of markets in derivative instruments tends to increase the risk even further.

Market makers of OTCBB are unable to use electronic means to interact with other dealers to execute trades. They must manually interact with the market, i.e. use standard phone lines to communicate with other dealers to execute trades. This may cause delays in the time it takes to interact with the market place. This, if coupled with the increase in trade volume, may lead to wide price fluctuation in OTCBB securities as well as lengthy delays in execution time. The Client should exercise extreme caution when placing market orders and fully understand the risks associated with trading in OTCBB. Market data such as quotes, volume and market size may or may not be as up-to-date as expected with NASDAQ or listed securities.

As there may be far fewer market makers participating in a OTC securities markets, the liquidity in that security may be significantly less than those in listed markets. As such, the Client may only receive a partial execution or the order may not be executed at all. Additionally, the price received on a market order may be significantly different from the price quoted at the time of order entry. When fewer shares of a given security are being traded, larger spreads between bid and ask prices and volatile swings in price may result. In some cases, the liquidation of a position in an OTC security may not be possible within a reasonable period of time.

Issuers of OTC securities have no duty to provide any information to investors, maintain registration with the Securities and Exchange Commission or provide regular reports to investors.

Risk of Margin Trading

The risk of loss in financing a transaction by deposit of collateral is significant. The Client may sustain losses in excess of his cash and any other assets deposited as collateral with the Broker. Market conditions may make it impossible to execute contingent orders, such as “stop-loss” or “stop limit” orders. The Client may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, the Client’s collateral may be liquidated without his consent. Moreover, the Client will remain liable for any resulting deficit in his account and interest charged on his account. The Client should therefore carefully consider whether such a financing arrangement is suitable in light of his own financial position and investment objectives.

Risk of Providing an Authority to Re-pledge Securities Collateral

There is risk if the Client provides the Broker with an authority that allows it to apply the Client’s securities or securities collateral pursuant to any securities borrowing and lending agreement, re-pledge the Client’s securities collateral for financial accommodation or deposit the Client’s securities collateral as collateral for the discharge and satisfaction of its settlement obligations and liabilities.

If the Client’s securities or securities collateral are received or held by the Broker in Hong Kong, the above arrangement is allowed only if the Client consents in writing. Moreover, unless the Client is a professional investor, the Client’s authority must specify the period for which it is current and be limited to not more than 12 months. If the Client is a professional investor, these restrictions do not apply.

Additionally, the Client's authority may be deemed to be renewed (i.e. without the Client's written consent) if the Broker issues the Client a reminder at least 14 days prior to the expiry of the authority, and the Client does not object to such deemed renewal before the expiry date of the Client's then existing authority.

The Client is not required by any law to sign these authorities. But an authority may be required by the Broker, for example, to facilitate margin lending to the Client or to allow the Client's securities or securities collateral to be loaned to or deposited as collateral with third parties. the Broker should explain to the Client the purposes for which one of these authorities is to be used.

If the Client signs one of these authorities and his securities or securities collateral are lent to or deposited with third parties, those third parties will have a lien or charge on the Client's securities or securities collateral. Although the Broker is responsible to the Client for his securities or securities collateral lent or deposited under the authority, any default by it could result in the loss of the Client's securities or securities collateral.

A cash account not involving Securities borrowing and lending is available from most dealers including the Broker. If the Client does not require margin facilities or does not wish his Securities to be lent or pledged, the Client should not provide the above authorities and should ask to open this type of cash account.

THE ABOVE RISK DISCLOSURE STATEMENTS DO NOT DISCLOSE OR PURPORT TO DISCLOSE ALL OF THE RISKS AND OTHER RELEVANT CONSIDERATIONS IN CONNECTION WITH ALL THE INVESTMENTS AND TRANSACTIONS CONTEMPLATED BY THIS AGREEMENT. YOU SHOULD REFRAIN FROM MAKING SUCH INVESTMENTS AND TRANSACTIONS UNLESS YOU FULLY UNDERSTAND ALL THE RISKS INVOLVED AND HAVE OBTAINED INDEPENDENT ADVICE FROM YOUR OWN ADVISERS.
